## Start here

The Census must count every person living in the United States on April 1, 2010.

Before you answer Question 1, count the people living in this house, apartment, or mobile home using our guidelines.

- Count all people, including babies, who live and sleep here most of the time.

The Census Bureau also conducts counts in institutions and other places, so:

- Do not count anyone living away either at college or in the Armed Forces.
- Do not count anyone in a nursing home, jail, prison, detention facility, etc., on April 1, 2010.
- Leave these people off your form, even if they will return to live here after they leave college, the nursing home, the military, jail, etc. Otherwise, they may be counted twice.

The Census must also include people without a permanent place to stay, so:

- If someone who has no permanent place to stay is staying here on April 1, 2010, count that person. Otherwise, he or she may be missed in the census.

1. How many people were living or staying in this house, apartment, or mobile home on April 1, 2010?

# Answering the Census is Safe

## **The Law Protects Your Answers.**

By law, the Census Bureau cannot share your answers with the IRS, FBI, Welfare, Immigration or any other government agency. No court of law, not even the President of the United States, can find out your answers. And the same law that keeps your answers out of the hands of these agencies, prevents the Census Bureau from selling or giving away your address to people who want to send you mail.

## **Highly-Motivated Employees Protect Your Answers.**

Census workers are sworn for life to secrecy. They know that if they give out any information they see on a form, they can face a \$250,000 fine and a five-year prison term. Census workers must pass security and employment reference checks. Protecting the privacy of people who reply to the census is an important part of every census takers training.

## **Technology Protects Your Answers.**

The Census Bureau protects your information with numerous security measures, including electronic barriers, scrambling devices and dedicated lines. Your answers are combined with others to produce the statistical summaries that are published. No one can connect your answers with your name or address.

Minnesota  
**BCA**  
Bureau of Criminal Apprehension

# AGENDA

- What is Questioned Identity?
- BCA Questioned Identity Process
- Impacts
- Questions

# WHAT IS QUESTIONED IDENTITY?

- A person either knowingly or unknowingly uses another person's identifying information, or they share the same name
- The "victim's" name (and possibly date of birth) is part of the criminal's record, listed as an alias
- When the innocent person's name is searched, a record comes up

# BCA QUESTIONED IDENTITY PROCESS

- The “victim” notifies the BCA that someone has used their name
- They complete a Questioned Identity Initial Report form
- The BCA performs a criminal history check using name and date of birth
- If a record is found, the fingerprints of the “victim” are compared to those on record. If they don’t match, the name is flagged on the record to indicate it is a questioned identity.

# BCA QUESTIONED IDENTITY PROCESS

- The name is redacted from the public record
- The “victim” is provided with a letter stating there is a record that includes their name, but it is not their record
- If the “victim” has their own record, that is also provided

Reported Names		Number	Middle Na
	Questioned Identity		
	CAUTION: An individual with this Name and/or Date of Birth has submitted fingerprints that indicate that he or she is NOT the subject of this record. The Minnesota Bureau of Criminal Apprehension has issued a letter to this individual, confirming that he or she is NOT the subject of this record. Fingerprint verification is the only way to confirm an individual is or is not the subject of this record.
